

ASHTRAY FOR RESIDENTIAL OVENS

Suitable for all Ephrem domestic ovens

Ashtray weight: 7.1 kg
Dimensions: 24.5x47x10.5 cm

ASSEMBLY INSTRUCTIONS

EXAMPLE OF ASSEMBLY ON THE AUTHENTIQUE PIZZAILO

Step 1: Place the fixing bracket (A) on the load-bearing slab below the oven opening ①.

Step 2: Mark the hole positions, then proceed to drill four 6 mm holes and insert 6 mm wall plugs.

Step 3: Create a seal between the fixing bracket and the supporting slab using silicone or mortar.

Step 4: Attach the fixing bracket to the slab by screwing it in place.

Step 5: Position the ashtray on the groove that supports the fixing bracket.

Step 6: Cover the ashtray by placing the lid on top.

IMPORTANT

- Do not switch on the oven until the insulation has been installed.
- Only use dry, untreated wood for your fire, avoiding any wood from demolition or industrial sources, whether painted or unpainted. Avoid the use of flammable products at all costs.
- Flammable materials and equipment should be kept at least 25 centimeters away from the sides of the oven or shielded from the heat radiation emitted by the oven.

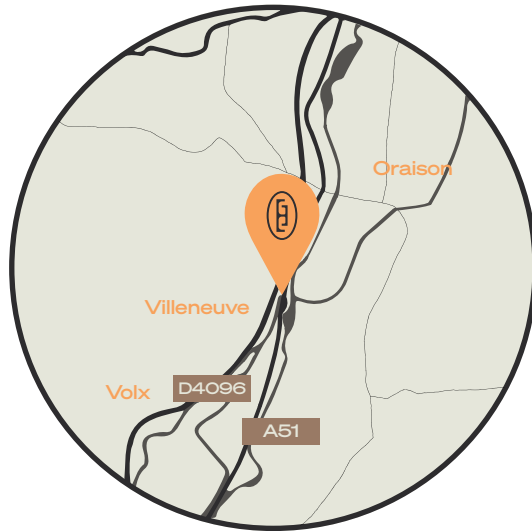

WARRANTY: The warranty for our ashtrays extends for two years from the date of delivery. This guarantee exclusively covers the replacement of faulty parts (with the customer responsible for the transportation costs of these parts). We are not liable for the assembly or disassembly of the oven and cannot provide coverage for any associated costs. Additionally, we will not be responsible for the expenses related to the replacement of defective parts or for any damages incurred during this process, regardless of the cause.
